SUMMARY

Full-Stack Developer (Front-End Focused) with 3.5+ years of experience building web applications using React, Vue.js, and TypeScript. Specialized in interactive maps and data-intensive interfaces, with hands-on backend experience in Node.js, Express.js/NestJS, and SQL.

EXPERIENCE

Longhorn Logistics Group Jan. 2025 – Sep 2026
Frontend Developer Tashkent, Uzbekistan

- Built a **real-time driver tracking system** using HERE Maps API and Firebase, processing GPS updates every 30 seconds for **1,000+ drivers**, with support for toll roads, weigh stations, and route avoidance
- Implemented **virtualized data tables** using TanStack Table, efficiently handling datasets of up to **10,000 records** while maintaining responsive scrolling and UI interactions
- Developed and modernized fleet-tracking features using **React and TypeScript**, leveraging TanStack Query for server-state management, caching, synchronization, and optimistic updates
- Migrated a legacy **Vue.js 2 logistics/ELD application to React**, rebuilding **15 pages** and restructuring frontend architecture to improve maintainability, scalability, and performance
- Developed and maintained component tests using **Vitest and React Testing Library**, covering component behavior, user interactions, and critical edge cases

Vention May 2024 – July 2024
Full Stack Developer Intern Tashkent, Uzbekistan

- Learned and applied **Node.js**, **Express.js**, and **NestJS** for backend development
- Developed **REST APIs**, configured routing, middleware, and basic authentication
- Worked with **JSON** processing and frontend-backend integration

Freelance Mar. 2024 – Jan. 2025
Frontend Developer Tashkent, Uzbekistan

- Developed small-scale web applications using **Vue.js** and **TypeScript**, including a school management system
- Implemented **role-based access control**, student performance tracking, and attendance management
- Developed gamification features, allowing students to earn and spend virtual coins in an in-app marketplace

UIC Group Feb. 2023 – Mar. 2024
Frontend Developer Tashkent, Uzbekistan

- Developed and maintained **lending-related web applications** using Vue.js
- Built interactive components and animated, responsive **landing pages**
- Optimized website performance, improved **Core Web Vitals**, and enhanced **SEO**

SKILLS

Languages & Frameworks: JavaScript, TypeScript, React, Vue.js, NestJS, Node.js, Express.js, SQL, TypeORM
Libraries & UI: TanStack Query, Zustand, Tailwind CSS, shadcn/ui
Testing: Vitest, React Testing Library
Tools & Platforms: Git, Docker, CI/CD, HERE Maps API, Firebase, AI-assisted Development Workflows
Spoken Languages: Uzbek (Native), English (Professional Working Proficiency), Russian (Elementary Proficiency)
